

Yongjung Kim | CV

Sejong University – Seoul, Korea

✉ yjkim.ast@gmail.com • Last updated: January 22, 2025

Positions

Assistant Professor

Sejong University
School of Liberal Studies

Seoul, Korea

2025.03 – present

Senior Researcher

Korea Astronomy and Space Science Institute (KASI)
Space Astronomy Group (PI: Dr. Woong-Seob Jeong)

Daejeon, Korea

2023.07 – 2025.02

Sejong Science Fellow

Kyungpook National University, continued at KASI and Sejong University
Advisor: Prof. Minjin Kim

Daegu, Korea

2021.09 – present

KIAA Fellow

Kavli Institute for Astronomy and Astrophysics at Peking University
Advisor: Prof. Linhua Jiang

Beijing, China

2019.11 – 2021.09

Postdoctoral Fellow

Research Institute for Basic Sciences at Seoul National University
Advisor: Prof. Myungshin Im

Seoul, Korea

2019.09 – 2019.10

Education

Seoul National University

Ph.D. in Astronomy
Thesis title: Survey of Faint Quasars at High Redshifts
Supervisor: Prof. Myungshin Im

Seoul, Korea

2013.03 – 2019.08

Seoul National University

B.S. in Astronomy
Minor: Physics

Seoul, Korea

2009.03 – 2013.02

Research Interests

Observational Cosmology with Quasars

- High-redshift Quasar Survey with Infrared Medium-deep Survey (IMS)
- Contribution of faint quasars to the cosmic reionization and ionizing backgrounds
- Growth of the supermassive black holes with their host galaxies at various redshifts
- Demography of quasars along the cosmic time
- Multi-wavelength surveys (participating in IMS, DESI, CSST & SPHEREx)

Research Grants

The Sejong Science Fellowship

Funded by National Research Foundation of Korea (\$420,000)

2021-2026

Subject: Cosmic Evolution of Quasar-Galaxy by developing an Integrated Analysis Model for the Observational Big Data

The 2020 China Postdoc Science Special Grant

Funded by China Postdoctoral Science Foundation (\$26,000)

2020-2021

Subject: Quasar and Host Galaxy Properties with the Newest Large Survey Data

The 2020 China Postdoc Science General Grant*Funded by China Postdoctoral Science Foundation (\$12,000)*

2020-2021

Subject: Quasar and Host Galaxy Properties with the Newest Large Survey Data

Top 100 Fellowship*Postdoc International Exchange Program at PKU (\$7,000)*

2019-2021

Subject: Enhanced Studies on High-redshift Quasars

Honors and Awards

Scholarship for Creative Academic Performance*Brain Korea 21 Program for Leading Universities and Students as a BK fellow (\$ 58,000)*

2013 – 2019

awarded by National Research Foundation of Korea

Academic Excellence Scholarship*Partial tuition scholarship (\$2,000)*

2014, 2015

awarded by Seoul National University

SNU in Global Research Awards*2nd place*

2013

awarded by Office of International Affairs at Seoul National University

Best Poster Presentation Awards at the 2012 Fall KAS Meeting*1st place*

2012

awarded by Korean Astronomical Society

Lotte Scholarship*Full tuition scholarship (\$5,000)*

2012

awarded by Lotte Foundation

Presidential Science Scholarship*Full tuition scholarship (\$10,000)*

2009 – 2010

awarded by National Research Foundation of Korea

Observational Experience

Classical/Remote Observations.....

BOAO 1.8 m Telescope**Bohyunsan Optical Astronomy Observatory***Longslit Spectrograph*

2023 January 27-31 (5 nights)

Palomar 200 inch Telescope**Palomar Observatory***DBSP (Remote)**(Telescope Access Program)*

2 nights in 2020B, 2 nights in 2021A

Magellan Baade 6.5 m Telescope**Las Campanas Observatory***IMACS & FIRE*

2015 January 18-19, September 11-13; 2016 December 3-5; 2018 September 9-10 (10 nights)

Otto Struve 2.1 m Telescope**McDonald Observatory***SQUEAN & CQUEAN*

2014 June 3-8, November 3-9; 2015 June 19-28; 2016 July 25-28; 2017 February 1-11, April 19-26, September 16-24, December 26-31; 2018 April 16-25; 2019 February 5-14 (81 nights)

Maidanak 1.5 m Telescope**Maidanak Observatory***SNUCAM*

2013 August 2-7 (6 nights)

Observations awarded as PI.....

James Clerk Maxwell Telescope**East Asian Observatory***SCUBA-2*

9.00 hr in 2018A

Gemini 8 m Telescopes

GMOS-N, GMOS-S, & FLAMINGOS-2

9.00 hr in 2016B; 13.00 hr in 2017B; 7.92 hr in 2018A; 14.00 hr in 2018B; 10.14 hr in 2019A; 6.9 hr in 2020A

Atacama Large Millimeter/submillimeter Array

12m Arrays

3.6 hr in Cycle 4; 2.6 hr in Cycle 5

Gemini Observatory

(K-GMT Science Program)

Observations awarded as Co-PI.....

Gemini 8 m Telescope

GMOS-S

1 night in 2015A; 6.70 hr in 2016A; 24.00 hr in 2017A (for thesis; PI: Myungshin Im)

Gemini Observatory

(K-GMT Science Program)
